VOLVO OCEAN 65

SISI VOLVO OCEAN 65 INTRODUCTION

The V065 is a one-design racing yacht designed by Farr Yacht Design in the USA specifically for the 2014/15 Volvo Ocean Race. The new one-design regulation ensured that all V065s are identical down to the smallest detail, with the same hull, rig, sails, and opportunities. This made for a more competitive race, as the teams were not at a disadvantage due to differences in equipment.

Sisi is a force to be reckoned with on the open water. This powerful racing yacht has competed in some of the most prestigious offshore races in the world, including the Volvo Ocean Race, the RORC Transatlantic Race, and the Rolex Fastnet Race.

Sisi is no ordinary yacht. She is built for speed and performance, with a towering mast, a sleek design, and advanced engineering. Her powerful sail plan allows her to reach incredible speeds, even in challenging conditions.

The Austrian Ocean Racing Project, which owns and operates Sisi, is a team of experienced sailors who are passionate about racing. They have achieved impressive results in some of the world's most challenging races, and they are always looking for new challenges.
